

September 20, 2022

To Whom It May Concern:

This is to confirm that Wijesinghe Mudiyanseelage Dilendra Sajini was employed at Cambio Software Engineering (Pte) Ltd. (www.cambio.lk) on permanent (full time) basis from October 14, 2019 to September 20, 2022 in the capacity of Associate Tech Lead.

Cambio Software Engineering (Pte) Ltd. is fully owned by Cambio Healthcare Systems AB. Cambio Healthcare Systems AB in Sweden was founded in 1993 and has rapidly grown to one of the world's leading e-health providers with main offices in Sweden, Denmark and the UK. Our global team consists of about 700 dedicated experts, including 300 software professionals in Sri Lanka. Dilendra was a member of this team and worked on the activities below from October 14, 2019 to September 20, 2022.

During her tenure in office, she gained experience in most aspects of software project development, especially in the following areas.

- Involved in requirement analysis, designing, implementation, code reviews and ensuring early identification of timeline risks, dependency impacts and possible edge cases
- Collaborated with teammates to improve shift-left testing with unit, integration and automated test suites to reduce manual testing effort
- Accomplished minimal smelly code by following SOLID best practices and refactoring existing legacy codebases while introducing new features to enhance code quality
- Preserved the non-functional requirements with memory profiling, load testing scripts, SQL profiling and CUTs (internal statistic analyzer) profiling
- Provided meaningful work decomposition for the capabilities and coordinated the technical work effort of the team
- Wrote unit tests and integration tests as part of the done criteria and keep code coverage at a good level
- Followed the Rest API standards, backward compatibility and delivered a quality output
- Planned and prioritized work well, clarify points and avoid proceeding with assumptions
- Achieved the timely delivery of the web overview while taking ownership and mentoring the team on the quality and standardization of design within 4 months
- Took the initiative and received early feedback and focused on reducing development effort through a design review cycle with the Technical Lead and Architect
- Lead, coached and communicated with other Software Engineers in terms of technical aspects as well as driving them to a common objective or target
- Communicated effectively with stakeholders and included customer scenarios with possible test cases which lead to the early identification of risk and impact

- Continuously contributed in improving the performance of the team while proactively participating in iteration planning, sprint planning, backlog refinements and retrospectives
- Has hands on experience in the following tools and technologies:
Java, Java EE, Spring, Jprofiler, Jmeter, Hibernate, Java Swing, Angular, Java Script, Type Script, SQL Server, SQL Server Profiler, RESTful WebServices, TestNG, Git, Bitbucket, Junit, Maven, Gradle

Dilendra is a focused, goal oriented, versatile and a hardworking IT professional who performs very well as an individual as well as a team member. Her enthusiasm and dedication made her a valuable member to our organization. She carried out the above tasks to our utmost satisfaction.

We wish her all the best in her future endeavors.

Yours sincerely,

.....
